

Your specialist for

TEST SYSTEMS & INDUSTRIAL SOFTWARE

www.autforce.com

AUTFORCE Automations GmbH // sales@autforce.com // www.autforce.com

▪ Test benches ▪ Test equipment ▪ Test bench software ▪ Testlab

From manual test stations to fully automated test systems

OUR SOLUTIONS

TEST BENCHES FOR EVERY PRODUCT PHASE

- Research & Development
 - Development test benches
 - Durability & load tests
- Production
 - Sorting & testing systems
 - In-process inspections, AOI
 - Container inspections
 - Functional tests, final inspections
- Rework & Reuse
 - Rework stations and returns analyses

TESTING EQUIPMENT

- Functional test cabinets for load & fault simulation
- Control jigs, testing devices

TESTLAB

- Feasibility studies, POC
- Test specification, technology trials

YOUR BENEFITS

With our solutions, you can:

DEVELOP YOUR PRODUCTS EFFICIENTLY

- Faster market launch - shorter development times thanks to efficient test procedures
- Product optimization - ensure and prove the functionality and service life of your products

PRODUCE THEM PROFITABLY

- Quality assurance - precise tests guarantee high-quality products and satisfied customers
- Cost reduction - detect defects early, avoid expensive rework and production downtime

REWORK THEM SUSTAINABLY

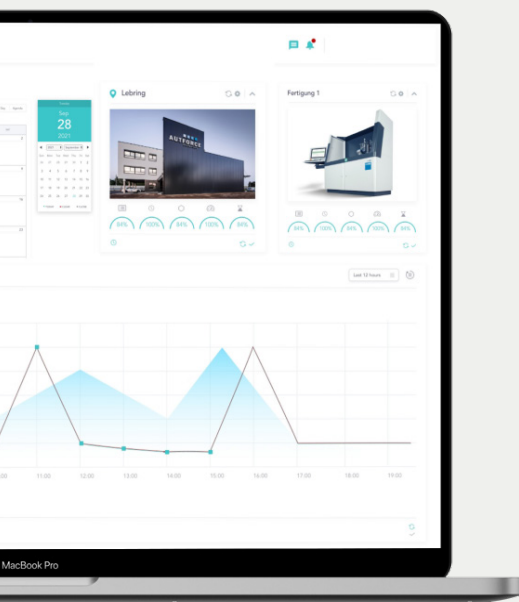

- Conserving resources - reduce material and energy consumption and environmental impact
- Production optimization - sustainably improve processes and secure a competitive advantage

TEST BENCH SOFTWARE

Optimize your testing processes with autfactory:

- real-time capable & web-based
- Test specimen and batch management
- Configuring test sequences (sequencer)
- Measurement data recording
- (if required, AI-supported) measurement data analysis and evaluation
- Individual test protocols
- Worker guidance, digital test instructions
- Simple integration into existing software
- Digital logbook, traceability
- Test bay automation (control and regulation of several test benches)

AUTFORCE Automations GmbH // Lagerpostweg 37, 8403 Lebring
